As a mount of enforcing prompt refease of cars this provision should be quite effective. In such case it will prove his the equivalent of an increase in the number of cars through reducing the length of time they are held out of service on plant

sidings; There may be some doubt as to the mity or desirability of authorisout regard to mine ratings, to mines furnishing coal to public utilities for current consumption. Exercise of this privilege might easily revive the long standing complaints against the as-signed car practice and might just as audity be construed as favoring some masse of the expense of others. The measure is to the public tuterest, however, and will generally be so re-garded.

Before the extension of the order becomes effective the decision of the Railroad Labor Board will very prob-ably be handed down. If so, the helpinfluences of an acceptance of the Plation situation ought engment the relief measures already in force. The hope of the public is that there will very shortly be no further need of governmental regulatory providing but that matend there will be a gradual and sleady return to normal in every phase of the important business of taking care of freight of every class.

windows open; eat three uniform meals a day including a good breakfast.

Paople who have catarrh or frequent colds invite Influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply. He advises an inexpensive homomade remedy that will bring relief in less than a day and will stop all discharge and sooth and heal the inflamed membrane in a few days. Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Kienthelized Arcine into a pint bottle, then fill the bottle with water that has been boiled.

Gardie the throat as directed and souff or spray the liquid into the nostriis twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal pairage and throat clean and healthy. Nearly all druggists dispense Mentholized Arcine in visis containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

"Here is another letter that makes me happy," says Peterson. of Buffalo. "One that I would rather have than a thousand delbars."
"Money Isn't, everything in this world. There is many a bis hearted, rich man who would give nil he has on earth to be able to produce a formedy with such mighty healing power as Peterson's Ontment, to soil at all druggists for 35 cents a large box."
Read this inter, written February 14, 1913, by Mrs. Aibert Southout, of Medina, N. Y. It seems like a miracle but it is true, avery word of it.
I know it because I sat similar letters almost every day from people who have used my ointment for old scros, ecsema and pilos.

Is it any wonder I am happy? Peterson Ointment Commerce, Huffalo, N. Y.
Doar Sirs:—

YOUR KIDNEYS!

Sonsiant Flunking May Injure the Del-icate Organism and Selion Re-moves the Polyonous Deposits.

Now that Dr. Carey, kidney and bladder specialist, has retired from active practice, he generally warms people that even the smallest symptoms of kidney trouble should have serious attention.

Backache, for instance, puffiness under or specks floating before the cyes, heavy foot and dry skin, are also danger signals.

"Thousands die yearly because they neelect their kidneys," says Dr. Carey "and I feel upon retiring that I should tell all who eyen suspect kidney or bladder trouble about my prescription, Marshroot, which, during my netive practice, has cared thousands of all kinds of kidney allments."

This proscription has been given to pharmaciats senerally throughout America and is dispensed by them under the name of Dr. Carey's Marshroot, a name that every sufferer from kidney trouble should remember. Connellsville Drug Co., C. Roy Hatzel, con Rapply you.—Adv.
